

Beeston Hills

Putting Green

PROJECT UPDATE

May 24th 2024

Whilst we wait for additional information required about the new permanent hut foundations, Sheringham Town Council have applied for a planning application which will allow for a temporary hut to be situated on the site, so the green can be opened.

(Application: PF/24/0970 - Full details are on the NNDC website)

Work has already been completed on the greens, including a contractor being bought in to tackle the mole issues, re-seeding particularly on the sloped part of the green and new perimeter fencing and entrance gates will be installed very soon.

Although progress may seem slow and we have had numerous hurdles to manage along the way, we are doing everything we can to get the putting green will be opened as soon as possible.
