13.06.2024

Dear Sir or Madam,

I am writing to you on behalf of Ørsted in relation to the Hornsea Three Offshore Wind Farm to inform you of upcoming abnormal load movements scheduled to pass through your area in the coming months.

About Hornsea 3

The Hornsea 3 Offshore Wind Farm received development consent in December 2020. Hornsea 3, once complete, could provide clean power to over three million UK homes and will make a significant contribution towards the UK meeting its net zero commitments. We are committed to working closely with stakeholders and local communities to ensure we deliver this project as collaboratively and efficiently as possible.

Abnormal Load Movements

Our cable installation activities involve the transportation of abnormal loads passing through or in proximity to your local area. These movements will start in our compound in Oulton, Norfolk and travel to various locations along our cable route corridor.

We understand that many people may have questions about this activity in your area and we wish to proactively provide you with answers and further details. We have attached to this letter an Advance Works Notice detailing the specifics of these movements. We have also produced a Frequently Asked Questions document that is available via the QR code, on our website at <https://hornseaproject3.co.uk/documents-library>, or through your local parish council.

FAQs

About Ørsted

The Ørsted vision is a world that runs entirely on green energy. Ørsted develops, constructs, and operates offshore and onshore wind farms, solar farms, energy storage facilities, renewable hydrogen and green fuels facilities, and bioenergy plants.

If you have any further questions, please call us on 0800 158 2354, or alternatively email us on community@hornsea3.co.uk.

Yours faithfully,

Ollie and Lilly, Hornsea Three, Community Liaison Officers

003803

Advance Work Notice

Abnormal Load Movements

As part of our work to prepare for the installation of the Hornsea Three onshore cable, we are required to transport equipment and materials to and from our compound in Oulton. Due to the nature of our works, some of these deliveries require larger specialised vehicles called abnormal loads.

We wish to inform you of the planned abnormal load movements from our Oulton compound to the northern section of our cable route only, which are planned to pass through or near your area.

The abnormal load movements to the northern part of the route (shown overleaf) will commence from **1 July 2024 to late 2024**. It is anticipated that we will be delivering up to **four abnormal loads over two days per week**. Given the nature of delivery logistics, and the constraints of requiring a police escort, these figures and the days of the movements may be subject to change. Please note that the

These movements are planned to arrive at its destination along the cable route during our core working hours: 9am – 4pm on weekdays. The map of the route the abnormal loads will take is shown overleaf.

What to expect

- You might see our abnormal load movements on the road during the day. We do not expect abnormal load movements to or from our main compound will occur during night-time hours (23.00-07.00).
- We will avoid undertaking the movements close to schools during school drop off and pick up times and rush hour times where possible.
- You might see our abnormal load movements being escorted to ensure additional safety measures are in place.
- On smaller roads, these abnormal loads might require a rolling closure to ensure the safety of our workforce and the public.

What we will do

- Keep all deliveries safe and secure, while keeping disruption to a minimum.
- Answer your questions via our community phonenumber and mailbox.
- Update your local parish council if changes are made to the delivery dates.
- Provide an FAQ document on our website with further details.
- Inform all parish councils along the abnormal load routes and provide a copy of the FAQ document for their webpage.

Please note that all our works are subject to site and weather conditions and our deliveries are dependent on agreements with Norfolk County Council and Norfolk Constabulary and are subject to change.

Key

-  To be used throughout the abnormal load movements period
-  To be used less frequently during the abnormal load movements period
-  Expected to be used between July and August 2024 only

If you have any questions about the map provided, or would like to request a clearer version, please contact us on the number or email provided overleaf.

Updates

As part of our commitment to proactive communication, we will be providing email updates to local stakeholders, including Parish Councils, with expected days of abnormal load movements in specific areas.

We are also offering these updates to members of the local community, where they are requested. If you would like to opt-in to updates on our abnormal load movements in your area please email community@hornsea3.co.uk with the subject line: **Hornsea 3 ALM Updates**. You can alternatively contact us on our freephone line 0800 158 2354.

To opt-in to our update service we will require the first line of your postcode and an email address for us to contact you. This is to ensure that we can provide you with the information relevant to you.

About us

The Ørsted vision is a world that runs entirely on green energy. Ørsted develops, constructs, and operates offshore and onshore wind farms, solar farms, energy storage facilities, renewable hydrogen and green fuels facilities, and bioenergy plants.

The Hornsea Three wind farm received development consent in December 2020. Hornsea Three, once complete, could provide clean power to over three million UK homes. It will make a significant contribution towards meeting the UK's net zero commitments and we're committed to working closely with stakeholders and local communities as we take the project forward.

Get in touch

We're committed to keeping you informed about our work. We want to be a good neighbour and try to minimise the impacts of our work on the community. If you'd like to get in touch, please email us at community@hornsea3.co.uk or call us on 0800 158 2354.
